PROFESSIONAL SUMMARY

High-achieving 3rd-year B.Tech Information Technology student (**CGPA: 9.3/10**) with strong foundational expertise in **Java Development, Data Structures, Web Technologies, and Machine Learning concepts**. Experienced in designing responsive client-side web applications and producing technical documentation. Seeking a software engineering or web development internship to apply core analytical skills and build practical, efficient software solutions.

TECHNICAL SKILLS

Languages:	Java (OOP, Collections, Streams, JDBC), C++, JavaScript (ES6+), Python
Web Development:	HTML5, CSS3, DOM Manipulation, Responsive Design, React.js (Basics), Node.js (Basics)
AI & Data Analytics:	Machine Learning (K-Means, Hierarchical Clustering), SQL, Excel (VLOOKUP, INDEX/MATCH)
Core CS Concepts:	Data Structures & Algorithms (DSA), DBMS, Operating Systems, Computer Networks, SDLC
Tools & Frameworks:	Git, GitHub, Visual Studio Code, Jupyter Notebook, Linux Fundamentals

ACADEMIC PROJECTS

SmartExpense Manager HTML5 CSS3 JavaScript — Academic Project

- Designed and developed an interactive web concept for personal daily expense tracking and budgeting.
- Implemented dynamic DOM manipulation and event handlers in JavaScript for real-time calculations.
- Authored a complete Software Requirements Specification (SRS) document outlining workflows and design.

E-Commerce Platform Clone (Myntra-Inspired) HTML5 CSS3 JavaScript — Academic Project

- Engineered a high-fidelity front-end interface for a fashion e-commerce platform using custom CSS layouts.
- Focused on responsive design principles, UI component structuring, and cross-device compatibility.

EDUCATION

D. Y. Patil College of Engineering, Akurdi, Pune — Expected 2028

Bachelor of Technology (B.Tech) — Information Technology — **CGPA: 9.3 / 10**

SSC (10th Standard): 93.00% **HSC (12th Standard):** 58.00%

RELEVANT COURSEWORK & CORE COMPETENCIES

Coursework: Data Structures & Algorithms | Object-Oriented Programming | Database Management Systems | Operating Systems | Computer Networks | Machine Learning

Strengths: Technical SRS Documentation, Analytical Problem Solving, Agile SDLC, Digital Marketing & SEO Fundamentals.
